Prof Kim Greaves
Clinical Lead for the PHASES Program
Sunshine Coast University Hospital

By email: [REDACTED]

Subject: Support for PHASES project

Dear Prof Greaves

Thank you for attending our Committee of General Practice meeting earlier this month. It was informative for the committee to hear about PHASES and the hard work you and your team have undertaken to date.

AMA Queensland supports all programs that improve the quality and efficiency of care for patients, particularly those at risk of cardiovascular disease. The committee saw benefits for patients from PHASES and increased chance of uptake among GPs if the program is able to:

- enhance screening of patients with their regular GP
- increase the availability of funding to general practices for team-based and longitudinal care
- increase and streamline digital and software integration.

We trust this letter is of assistance and wish you the best with the project.

Yours sincerely

[REDACTED]

Dr Nick Yim
